SOFTWARE ENGINEER

MERN STACK DEVELOPER

REACT APP DEVELOPER

About Me

As a highly motivated software engineer undergraduate with a passion for web development, my career goal is to contribute to cutting-edge projects and drive innovation in the field. With strong focus on MERN Stack development, I possess a solid foundation in JavaScript, React, Express and Node.js. Through my coursework and hand-on experience, I have honed my skills in building responsive and user-friendly web applications.

Projects

Notes taking React App

This web application provides user with the facility of sign-in/log-in via username. The user can take down personal notes which remain 100% confidential to the him/her. Safe and reliable for specially designed for students.

Restaurant Reservation App
